

Copenhagen Summer Breeze 4:43

Music: Nanne Emelie, Brett Perkins | Lyrics: Nanne Emelie, Brett Perkins, Neill C. Furio

The sun is smiling on the King's Royal Park
A baby goo-goo's to mamma and pop
Blossoms burst out of joy from the trees
In the Copenhagen summer breeze

A crate of Carlsberg as green as the grass
A football lands in the pond with a splash
Tall tales are told of birds and bees
In the Copenhagen summer breeze

With a thousand stories about to unfold
My old man is dozing on the couch
Everybody else is at a picnic you know
Why's he always such a grouch?

I may not have all that I want
Or everything I need
But while I'm in here life goes on
In the Copenhagen summer breeze

Moving pictures in the Orangina air
Couples touch and tango in the square
Can we have a little peace and quiet please
In the Copenhagen summer breeze

With a million stories about to unfold
My old man is dozing in his chair
Everybody else is at a party you know
Maybe I should have an affair

I may not...

But while I'm sleeping life goes on
In the Copenhagen summer breeze

3:57 Stay Beautiful

Music: Nanne Emelie, Thomas Mannsfeldt | Lyrics: Nanne Emelie, Thomas Mannsfeldt, Neill C. Furio

When you hear chaos shatter your widescreen window
And you see crowns explode in your crystal ball
When falling stars are dim and flags are burning
When you're up and down against the wall ...

Stay beautiful, stay beautiful, stay beautiful

When you're bitten by a smile false bright and empty
And it leaves a bitter trace right beneath your skin
When students stand their ground and tanks are turning
And you still don't know which way they'll spin ...

Stay beautiful, stay beautiful, stay beautiful

On your wings, rising from the ashes
Since our hope burned down
Silence sings, static pressure crashes
Once upon a town

Stay beautiful, stay beautiful, stay beautiful

On your wings...

Turn Around

Music: Nanne Emelie, Stephan Grabowski | Lyrics: Nanne Emelie, Neill C. Furio, Stephan Grabowski

There is a light all around you
It's rising every morning
There is a light and it found you
Black tide before the dawning

There is a world when we wake up
It's spinning almost daily
There is a world when we break up
It teeters rather fraily

Oh, we think we need a ton of attention
The effort is too much to mention

I'm gonna turn turn around
I wanna turn turn around

There is a love right inside of you
It's beating every second
There is a love there to guide you
You heard it when it beckoned

Oh, to carry it all is one hell of a burden
Two blue tons of woe, that's for certain

I'm gonna turn turn around
I'm gonna turn turn around

Oh, a night of reflection
The freedom to change your direction

Turn turn around
I'm turning, turn turn around...

THE LAST THING I'LL DO 5:08

Music: Nanne Emelie, Ted Bjurwill | Lyrics: Nanne Emelie, Ted Bjurwill, Neill C. Furio

Dead sure in my veins
Warm blood on my hands
Cold sweat from his touch on my chest
The seatbelt, the car
Dank gray in the air
Still smell his stale breath on my neck

Gotta get outta this place
Gotta go, gotta run, get away

Cars flying by, blood in my eyes
Driving real fast, away from the past
Out of the blue, the last thing I'll do

Dear Dad and Step-Mom
Blackout afternoon
Sick grin frozen over her face
The loose ceiling fan
His family demands
Steel spring digging into my back

Gotta get out of this place
Gotta go, gotta drive, drive away

Cars flying by, blood in my eyes
Driving real fast, away from the past
Out of the blue, the last thing I'll do

Neon array, the velvet decay
Black & white scene, the flickering screen
Out of the blue, the last thing I'll do

Push open the door, his gun in the drawer
The barrel is steady as steel
Two shots to the head, I'll let that bitch live
And pocket his piece with the keys

Neon array, the velvet decay
Black & white scene, the flickering screen
Out of the blue, the last thing I'll do

Cars flying by, blood in my eyes
Driving real fast, away from the past
Out of the blue, the last thing I'll do
The last thing I'll do
